«Alice in Wonderland»

lewis Carrol

lewis Carrol

- ◉ lewis Carrol was born 27th Jenuary 1832 in Cheshir.His father was a priest.Lewis had 7 sisters and 4 brothers.He liked study and he begun to write from an early age in1864 he wrote "Alice in Wonderland".It is the most famous book of his creation.
- ◉ The gener of "Alise in Wonderland" is fantasy.The main characters are Alice,Crazy Hatter,Red Queen and White Queen.

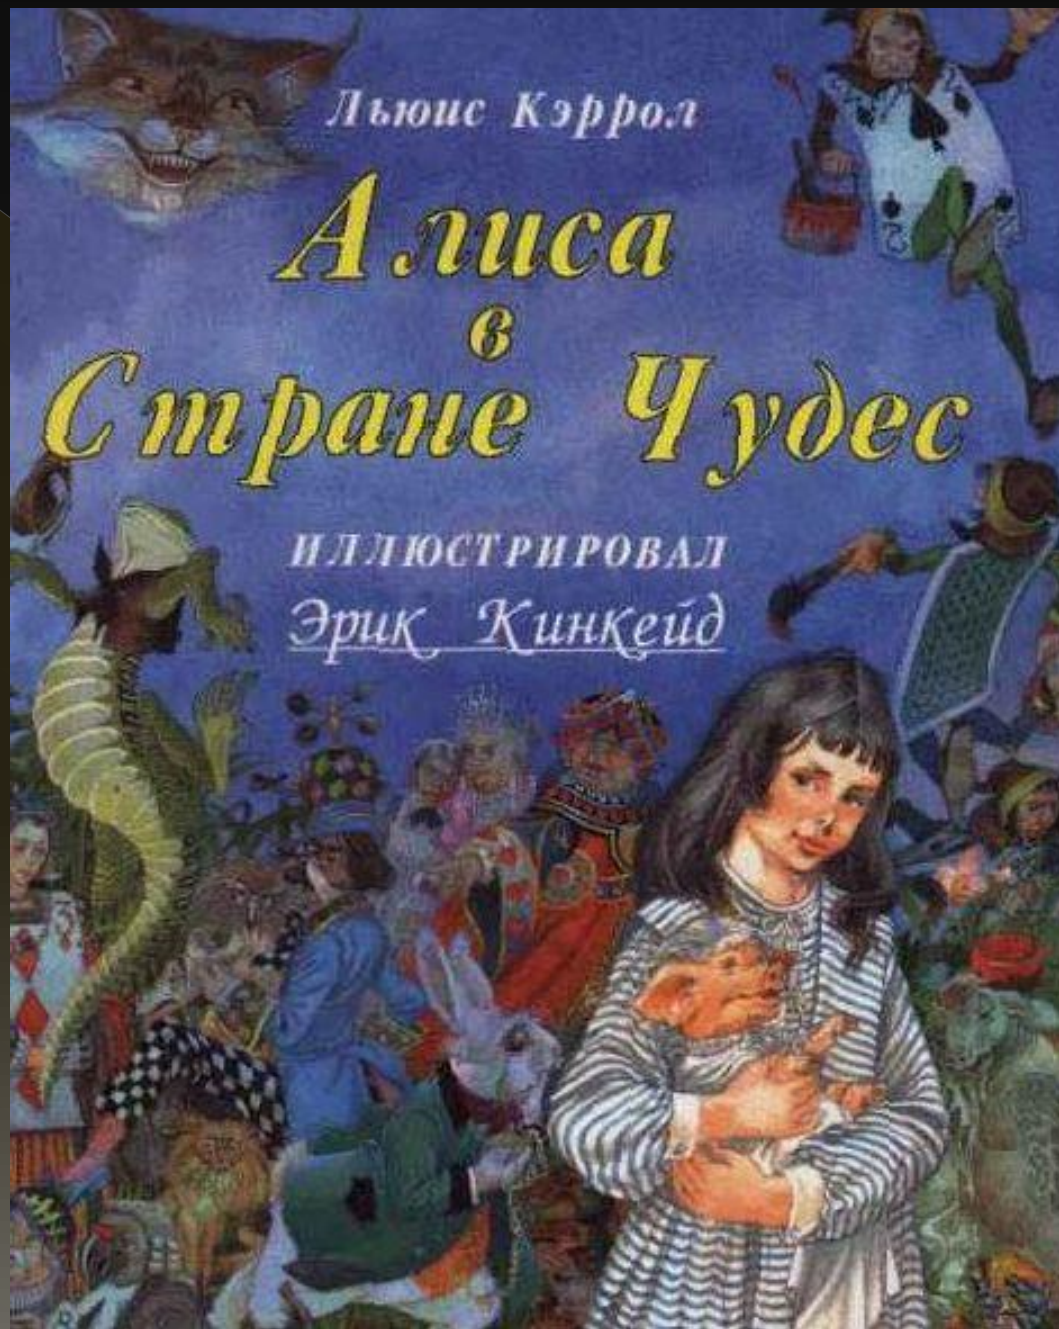

Alice in Wonderland

- ◎ The story is set in Wonderland.
Alice is sitting under three and reading a boring book. Suddenly she sees a white rabbit which hastes somewhere. Alice runs to White Rabbit and falls into Rabbit's hole. Then her adventure beginning. She meets a very strange animals and flowers which can speak. But the most strange of them is Crazy Hatter. He can walk on the table and break everything. Crazy Hatter is a servant of White Queen. But one day he stops be it. Red Queen (White Queen's sister) burns all propetry of white Queen. Crazy Hatter is catches by Red Queen. War started. There is a long and bloody battle. But brave Alice comes and helps white Quens
- ◎ Queens*
- ◎ She wins this war. Red Queen sits in prison. Crazy Hatter become White Queen's servant again. She gets back her throne and kingdom. Alice backs home. it is a happy end of Alice's danger and crazy adventure.
- ◎ I like this book because it's crazy, interesting, magical, danger trilling. The book techers us be a good friend, be brave and strong. This book is brilliant. I recommend "Alice in Wonderland" to everybody. it's worth reading.

«Frankenstein»

Mary Shelley

Mary Shelley

- Mary Shelley was born on August 30, 1797 in London, the son of the famous English writer William Godwin and Mary Wollstonecraft. Mother Mary died a few days after her birth, will forever remain an object of worship for his daughter. At the beginning of July 1822 fate dealt Mary its most severe blow. The yacht, which Shelley with two companions returned from Livorno, was caught by a sudden squall. Beached mutilated bodies were found only on 18 July. After permission was granted authorities on 13 August Shelley body was burned at the stake on the beach

«Frankenstein»

- Frankenstein - the hero of the novel M. Shelley's "Frankenstein" (1818). Written under the direct influence of the English gothic novel of the late 18th - early 19th century novel M. Shelley largely exceeded the product of H. Walpole, A. Radcliffe et al. Scale presented therein humanistic ideas and psychological development of the characters. Victor F. - a young Swiss scientist, endowed with remarkable talent and an insatiable thirst for education, possession of a mystery play of living matter. He creates the human being with extraordinary strength and endurance, but the defeat of his physical deformity that can cause a terror? Hurry to divest themselves of responsibility for the future of his creation. ? As a result, a demon, or a monster, as the author calls it, desperate to regain his place among the people rebelling against the founder and cruel revenge on him consistently killing brother, friend, bride F. consumed his youth to create a demon F. rest of his life devoting attempts to destroy it, hoping thereby to atone for humanity. Multi-year journey leads him to the North Pole, where life is cut off accident investigator. But with the death of F. disappears and the meaning of existence monster voluntarily departing from the world rejected him. ? According to the observation A. Elistratova, in the years since the publication of the novel, the name Frankenstein managed to take root in the English language to describe someone who unties or resorts to force, slipping out of his control. However, the image AF carries not only the prophetic thought of the possibility of adverse consequences for mankind of scientific progress, but also profound reflections on human nature. Horrible monster appears in the novel as a counterpart of the great creator. "Being that I let it live among the people empowered in an effort to do evil <...> seemed to me as my own evil inclination, a vampire torn from the grave to destroy all that is dear to me", - says F. This "Modern Prometheus" knows all the imperfection of the divine creation of man, carrying in itself as creative and destructive impulses. ? The novel has repeatedly staged in the lifetime of the writer, and later adapted for the screen numerous times. Unfortunately, none of its adaptations, including the latest with Kenneth Branagh in the role of Frankenstein and Robert De Niro in the role of a demon, was not able to convey the complexity of the philosophical and psychological sophistication of this novel.

- фРАНКЕНШТЕЙН - герой романа М. Шелли «Франкенштейн, или Современный Прометей» (1818). Написанный под непосредственным влиянием английского готического романа конца 18 – начала 19 века, роман М. Шелли во многом превосходит произведения Х. Уолпола, А. Рэдклиф и др. по масштабу представленных в нем гуманистических идей и психологической разработке характеров. Виктор Ф. — молодой швейцарский ученый, наделенный недюжинным талантом и ненасытной жадой просвещения, овладевает тайной воспроизведения живой материи. Он создает человеческое существо, обладающее экстраординарной силой и выносливостью, но, пораженный его физическим уродством, способным вызывать лишь ужас, спешит сложить с себя ответственность за дальнейшую судьбу своего творения. В результате демон, или монстр, как именует его автор, отчаявшись обрести свое место среди людей, восстает против создателя и жестоко мстит ему, последовательно убивая брата, друга, невесту Ф. Употребивший свою молодость на создание демона, Ф. весь остаток жизни посвящает попыткам его уничтожить, надеясь таким образом искупить свою вину перед человечеством. Многолетние странствия приводят его к Северному полюсу, где обрывается жизнь несчастного исследователя. Но со смертью Ф. исчезает и смысл существования монстра, добровольно уходящего из отвергнувшего его мира. По наблюдению А. Елистратовой, за годы, прошедшие со времени выхода романа, имя Франкенштейна успело укорениться в английском языке для обозначения того, кто развязывает или пускает в ход силы, ускользающие из-под его контроля. Однако образ Ф. несет в себе не только пророческую мысль о возможности пагубных для человечества последствий научного прогресса, но и глубокие размышления автора о природе человека. Ужасный монстр предстает в романе в качестве двойника великого создателя. «Существо, которое я пустил жить среди людей, наделенное силой в стремлении творить зло < ...> представлялось мне моим же собственным злым началом, вампиром, вырвавшимся из гроба, чтобы уничтожить все, что мне дорого» , — признается Ф. Этот «современный Прометей» познает все несовершенство божественного творения человека, несущего в себе как созидательные, так и разрушительные импульсы. Роман неоднократно инсценировался уже при жизни писательницы, а впоследствии много раз экранизировался. К сожалению, ни одна из его экранизаций, включая и последнюю с Кеннетом Браном в роли Франкенштейна и Робертом де Ниро в роли демона, не смогла передать философскую сложность и психологическую изощренность этого романа.

MARY SHELLEY

COMPLETE AND UNABRIDGED

with an introduction by MARY MC. THERIAULT

«Hamlet»

William Shakespeare

William Shakespeare

- William Shakespeare is the most famous English author. He was born (baptized) on April twenty-six, 1564 and died on April, twenty-three, 1616. Shakespeare wrote thirty-seven plays and two long poems during his lifetime. The playwright lived in Stratford-upon-Avon, county Warwickshire in England. His plays are performed today and his is quoted in modern literature very often. Shakespeare was not only writer, but also an actor. By 1594 he was a member of the acting company named 'The Chamberlain's Men'.

«Hamlet»

- Love, ambition, betrayal, rivalry and mysticism. All this will always haunt the hearts and minds of the reader. In his work as quotes that have eaten into our lives, though we often do not remember where they are. How tragic Hamlet, his doubts and experiences do not leave indifferent, they raise doubts and experience with Prince. Torments him so exhausted, he forgot about his beloved, lost sleep, suspected all around and talking to the skull. Intrigue, suspicion - all that keeps the reader in suspense, even though he knows the end of the action. And, of course, tragic outcome of action. There are no happy endings. That's what Shakespeare.

The invisible man

Herbert George Wells

Herbert George Wells

- Herbert George Wells (21 September 1866, Bromley, UK — August 13, 1946, London, UK) English writer and publicist. The author known for science fiction novels.
In 1895, wells wrote his first work of fiction, the novel "the time Machine" about the journey of the inventor in the distant future. Wells is the author of many of the popular science fiction in subsequent years.
H. G. wells visited Russia three times, where he met with Lenin and Stalin.
Wells lived in London and on the Riviera, often lectured and traveled extensively. He was married twice: from 1891 to 1895 Isabel Mary wells, and from 1895 to 1927 — Amy Catherine (Jane) Robbins. The second marriage were born two sons: George Philip wells, Frank Richard wells.
Died in London on August 13, 1946. At funerals John Boynton Priestley called wells "the man whose word brought light into many dark corners of life." According to the will, after the cremation the two sons, being on the Isle of Wight, dispelled the ashes of the writer over the channel.

The invisible man

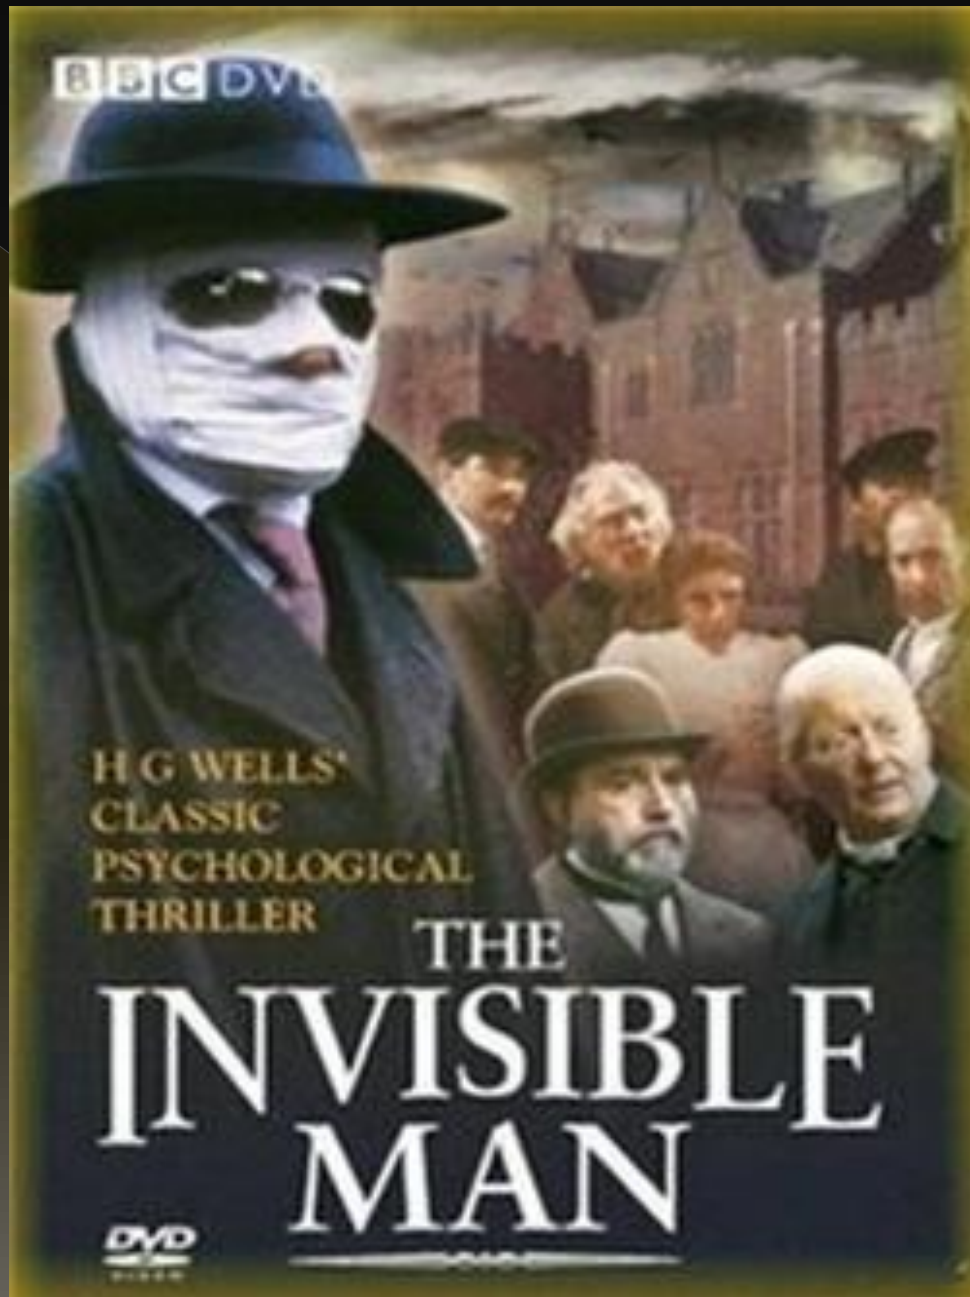

- "The invisible man" — a novel by H. G. Wells, written in 1897. In his novel, Wells opposed popular in those days, the ideas of the Superman, who allegedly has the right to rule over the weak or stupid people and even destroy them. In this novel describes the fate of the English physicist Griffin, who invented a machine that makes a person invisible (and, simultaneously, the drug which dis blood). However, for all but invisible man was supposed to be an albino, as Griffin was. Griffin does not want to disclose his discovery to later create the greater the sensation. However, the circumstances were such that due to financial difficulties he could not continue his work. He had the idea to "disappear" and start a whole new life as invisible.
